Jon, a proud member of Champagne and Aishihik First Nation, brings wealth of operational knowledge from within a Yukon Self-governing First Nation. He has over 8 years experience in operating and maintaining drinking water systems, providing potable water to his community. He's taken these skills and experience and now mentors and trains several other operators within First Nation communities in Yukon. A natural hard worker, seeking perfection in his task, he's also dedicated to keeping his communities healthy by providing safe drinking water. Jon, trained in emergency response, also volunteers his time as the emergency contact for his local Fire Department and RCMP.
